

# Campus Arboretum

## Guided Tours Now Open for Registration

The Campus Arboretum living collections support university research and education but they are also here to serve the communities of Arizona directly. The purpose for their collection, the care they need and the ways they repay our efforts with countless benefit to the triple bottom line will become clear to you as you attend a guided tour of campus trees. The Pima County Master Gardeners serve as expert guides for the Campus Arboretum tree tours. Join them to visit and learn about the university's service mission, and about the botany, cultivation, care, and traditional uses of hundreds of arboretum tree species. Interested in Sonoran Natives? Edible Plants? Landscaping for the 21<sup>st</sup> Century? We have a tour for each of these and more. The guided tours are scheduled throughout the academic year on Sunday mornings, with a few on Saturday mornings. The times vary depending on the season. Most tours start at the Berger Memorial Fountain on the west side of the Old Main Building and last 60-

90 minutes. Space is limited and registration is required.

Registration for fall tours opens Aug. 1, 2025.
